Hospice Volunteering Opportunities – August 2017

Each year increasing numbers of local families will turn to us for support and all the care we provide to them is free of charge.

It costs approximately £3.5million a year to provide these services and without our volunteers' gift of time, dedication and commitment, less money would be available for our free patient services.

All our volunteers get something slightly different from the experience, such as:

- making a difference to an individual's life
- getting invaluable work experience
- putting existing skills to good use
- making new friends
- changing the way things work for the better
- developing new skills
- getting involved with the community

We have a wide range of volunteer roles available and even if you can only spare a few hours a week, you will find something to suit you!

We believe in a society that gives everyone an equal chance to **learn**, **work** and **live** free from **discrimination**, **harassment** and **prejudice**.

Weston Hospicecare, as a charity and voluntary organisation, appreciates the value of volunteering. Volunteering means people independently choosing to give their time freely to help others. We believe in keeping volunteering voluntary and will not knowingly participate in compulsory volunteering schemes which adversely affect the receipt of benefits.
